

QUEEN'S WHARF BRISBANE

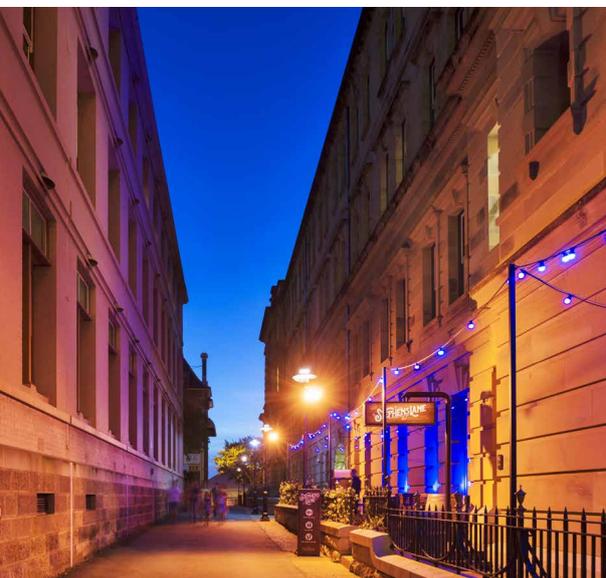

Queen's Wharf Brisbane Invigorating our heritage

Queen's Wharf Brisbane is recognised as the birthplace of Brisbane's European history, it has one of the greatest collections of culturally significant heritage buildings and places in Australia, dating back to the early 1800s.

The precinct is situated in the heart of the city's CBD, between the Brisbane River and George Street, and extends from Alice Street to Queen Street.

As part of Destination Brisbane Consortium's multi-billion dollar Queen's Wharf Brisbane integrated resort development, all of the precinct's heritage buildings and places will be repurposed and reactivated for public use.

By sensitively revitalising these 'jewels' of the precinct, locals and visitors alike will have the unique chance to explore both the Indigenous and European history of Brisbane through a variety of food and beverage, tourism, and retail experiences, breathing new life into a largely underutilised part of the city. New heritage trails through the precinct are also proposed to incorporate both Indigenous and European history as part of the integrated resort development.

Heritage buildings and places within the precinct

1 The former Treasury Building

21 Queen Street

Currently: The Treasury Casino.
